

CEMENTO BIANCO

White cement for interior and exterior applications

Technical specifications

CEMENTO BIANCO is a product used for grouting sanitary fixtures and ceramic tiles, as well as for preparing plasters and special decorative finishes for walls and floors. The product is suitable for both indoor and outdoor use.

Instructions for use

Add two volumes of powder to one volume of water and mix thoroughly with a trowel until a homogeneous, lump-free paste is obtained. Apply the mixture by compacting it with a rubber spatula.

To prepare mortars: mix 1Kg of product with 2-3Kg of washed sand, then immediately add water and mix until the desired consistency is achieved. Surfaces must be clean and dampened before application. Prepare only quantities that can be used within 2 hours. Do not add water to the mixture and do not use material that has already begun to set. Do not stress the applied material for 24-48 hours.

Do not use below +5°C or if frost is expected within 48 hours. Under high temperature, wind, or direct sun, moisten the applied material for the first 24-48 hours. Clean tools with water before the material sets.

Application

Apply **CEMENTO BIANCO** as supplied, using a rubber spatula.

Consumption

The consumption of **CEMENTO BIANCO** varies depending on the method of use and the required application.

Warnings

Store in a cool, dry place, in the original intact packaging.

Use the product following good working practices, avoiding environmental dispersion.

Wear appropriate protective equipment (gloves, safety goggles, etc.).

The product is not considered hazardous, but avoid contact with eyes and skin. In case of contact, wash thoroughly with water.

Store the product indoors in its original sealed packaging, away from weather, frost, and heat sources.

Do not disperse into the environment: follow local disposal regulations.

Always perform a preliminary test before use.

Packaging

12-pack boxes 1Kg **Barcode: 80-20709-000349**

5-pack boxes 5Kg **Barcode: 80-20709-002039**

CHEMICAL AND PHYSICAL PROPERTIES

Physical state	Powder
Color	Whitish
Smell	Odourless
Flash point	Non-flammable
Density (T=20°C)	2,7-3,2 Kg/L
Bulk density (T=20°C)	1,0-1,5 Kg/L
pH (saturated solution)	11,0-13,5
Melting point	>1200°C
Water solubility	Low, 0,1-1,5g/L
