

## SODA CAUSTICA

*Caustic soda pearls*

### Technical specifications

**SODA CAUSTICA** is sodium hydroxide in pearls, usable in aqueous solution at various concentrations for paint stripping and degreasing work, both in industry and at home.

### Instructions for use

For paint stripping and degreasing: dilute **SODA CAUSTICA** with water until the desired concentration is reached (from 50g to 100g per liter of water).

For unclogging drains: pour the product into the blocked pipe and then add plenty of hot water.

### Application

**SODA CAUSTICA** can be diluted in water or used undiluted, depending on the required application.

### Consumption

The consumption of **SODA CAUSTICA** varies according to the method of use and the specific application.

### Warnings

When handling, protect skin, eyes, and face.

Store the product in well-ventilated areas, away from acids.

Always carry out a preliminary test before use.

Use according to good working practices and avoid releasing the product or its packaging into the environment.

### Packaging

12-pack boxes    1000g    **Barcode: 80-20709-000882**

### CHEMICAL AND PHYSICAL PROPERTIES

Physical state	Pearls
Smell	Odorless
pH	14 (maximum alkalinity)
Boiling Point	1390°C
Melting Point	318,4°C
Flash Point	Not applicable
Solubility	Soluble in water, partially soluble in alcohol, insoluble in ether and acetone

Technical Data Sheet code: 3SOCAB-Revision 01 of 01/10/2025
