

CODE	Art. 1600
TRADE NAME	ACETONE
PRODUCT TYPE	SOLVENT

Technical characteristics

It is used as a solvent for fats, oils, waxes, resins, rubbers, plastics, paints, varnishes, rubber based adhesives.

The product is also an excellent degreaser for metal surfaces, wood, marble, laminates, plastics, textiles, and other materials.

Recommended as stain resistant, does not corrode metals and can be used in all areas where it requires a good degreaser. Because of its purity characteristics it is stable and does not deteriorate.

Dilute the paint until it reaches the desired fluidity: with an optimal dilution will enhance the gloss of the paint and relaxation.

Use this as a cold when requesting the removal of pollutants by rag, brush or dipping.

Applications

To dilute:

Dilute the paint until it reaches the desired fluidity: with an optimal dilution will enhance the gloss and the distention of the paint.

To clean:

Use this when requesting the cleaning of surfaces, paintbrushes and spray guns dirty not dried.

Important

Always conduct a preliminary test before using. Use according to good working practices, however, dispose of the product or packaging environment.

Safety data

Refer to the Material Safety Data Sheet

Chemical and Physical Property	
Physical State	Liquid
Colour	Colourless
Odour	Characteristic
Flash point	< 21°C
Relative density	0,79 ± 0,02 g/cm3
Boiling point	60°C ca.
