

CODE	<b>Art. 2000</b>
TRADE NAME	EDILPULY
PRODUCT TYPE	CLEANER FOR CEMENT LIME RESIDUES

## Technical characteristics

Degreasing solution indicated to remove lime and cement residues.

Edilpuly, formulated with an acidic matrix, can be applied on floors for industrial use or made with terracotta or ceramic tiles and other materials.

## Applications

Compose a solution consisting of 1 part of Edilpuly and 2 or 4 parts of water depending on the degree of dirt to be removed. Apply the mixture on the surface to be treated, leave to act for a few minutes, then brush and then proceed by rinsing thoroughly with water until complete removal of the product.

## Important

When using Edilpuly inside rooms, it is necessary to provide adequate ventilation. It is advisable to protect metal parts from sprays or from accidental contact with the solution in order to prevent them from being damaged by the acidic matrix.

It is advisable to carry out a preliminary test before each definitive use of the product, in compliance with the rules and the correct working practices.

## Safety data

Refer to the Material Safety Data Sheet

Chemical and Physical Property	
Physical State	Liquid
Colour	Brownish yellow
Odour	Pungent
Flash point	Not inflammable
Relative density	1,1 kg/l
Water solubility	Total
pH	< 1
